### WHY BLUEBERRY?

Our motto, *"It's more than business. With us, it's personal,"* speaks about who we are and how we operate. We're definitely about business - your business and we desire to give you a *visual presence* - but the way we go about it is unique. Getting to know you and what you want to accomplish is the key to helping you reach your goal. Portraying your message to your target audience is what we keep in mind and we work at it until you are satisfied. We pay attention and give you choices. Since we offer flexible pricing - we're able to spend more time on your project and really personalize it.

### FLEXIBLE PRICING

What is Flexible Pricing? Simply this: We adjust our pricing based on whether you are operating a non-profit, corporate, or small business. Additionally, we offer flat-rate project pricing for most of our services. You'll know exactly what you will be charged - hence, no surprises! We're a small company, home-grown, so-to-speak, so we understand about the need to work within a budget.

Some of our services are charged at an hourly rate, but don't let that stop you from calling us. We're very competitive when compared to our peers.

(925) 768-1567

It's more than business.  
With us, it's personal.

Call us to discuss your project. There's no charge! Depending on the scope of the task, we often can give a quote while we're on the phone. For more complex projects, we'll email you a detailed, no-obligation proposal.

Blueberry Web Creations is a division of Blueberry Software, which has been providing computer programs, services, and solutions for thirty years. The company was formed in 1986 with the release of its Filtrix document conversion product and was one of the early pioneers of the Import/Export capability that is now a standard feature of computer applications throughout the world.
